

# GANZ ELECTRIC MOTORS & GENERATORS

Specializing in the design, manufacture and testing of MV & HV:

## Asynchronous motors:

500 kW – 15 MW

## Synchronous generators:

1000 kVA – 50 MVA

and also offering

**Synchronous condensers up to 50 MVar & Services of Rotating Machines**

## APPLICATIONS IN THE CEMENT INDUSTRY:

- Fan (Preheater, Bag-house, Booster, Cooler Vent)
- Raw Mill, Ball Mill, Coal Mill
- Limestone Crusher
- Conveyors
- Grinders, Kiln

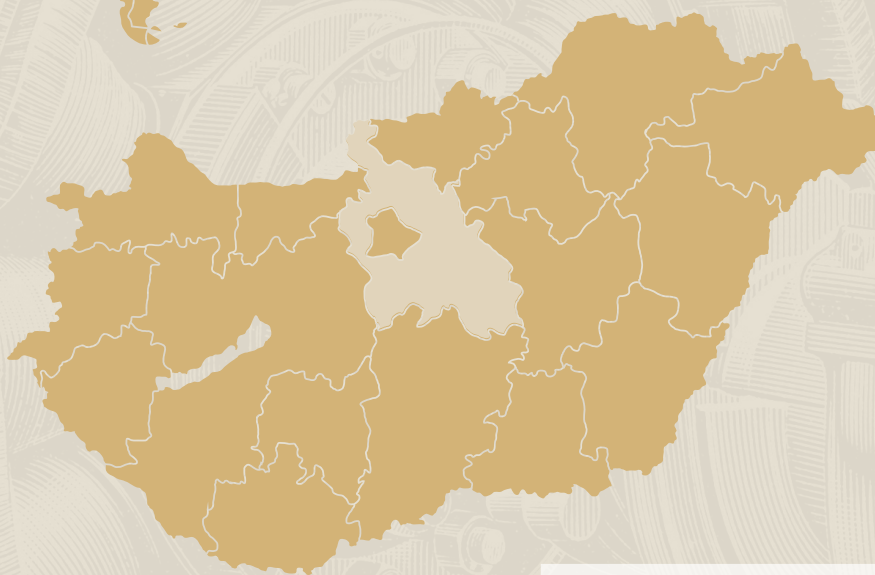

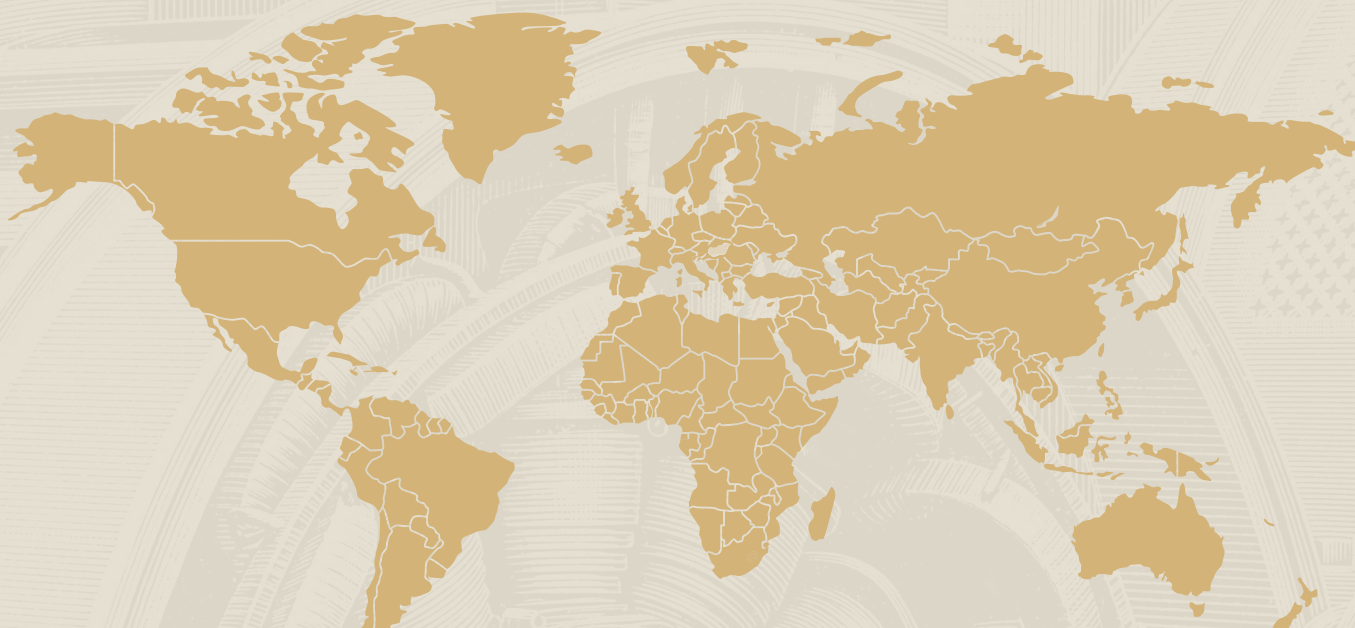

**GANZ is a reputed brand in the industry both for slipring & squirrel cage induction motors, offering:**

- special applications with **brush lifting mechanism**
- **squirrel cage** induction motors for **Variable Frequency Drive operation**
- **double cage** induction motors for **heavy DOL start**
- interchangeable/retrofit motors
- selected designs for **overload duties, low noise & vibration**
- **Ganz Intelligent Solutions** monitoring system for **extended lifetime**
